ON-OFF switchable
2 or 4 power levels

Description

Light wherever it is needed. The HERCULES series offers individual high-quality LED work lights for a versatile range of applications in industry, construction, crafts, workshops and leisure. Equipped with high-quality Li-Ion batteries with a long service life. Robust impact-resistant 2-component housing made of polycarbonate. Powerful and highly efficient LED SMD unit with glare-reduced opal diffuser for large-area homogeneous light distribution. Adjustable light levels for demand-oriented working light. Flexible light angle due to adjustable stand bracket.
